Assignment and Review Session Instructions

1. I will be doing 15-minute individual photo reviews of participants' work during the workshop.
2. The reviews will take place on Saturday afternoon (after lunch) in the lobby of my hotel.
3. Please bring **up to** five (5) images for me to review. Bring your laptop with the images, or a memory stick and we will download the pictures onto my laptop for the review.
4. The images must have been shot during the workshop.
5. Be ruthless in selecting your work for the review. Pick only your best stuff. The editing process (picking your best pictures) is an important process in becoming a better photographer, so please **DO NOT** bring all your images and ask me to edit your work for you.
6. If you have the time and inclination (and the software), feel free to manipulate the images any way you want before the review session
7. I will view and critique images individually, and will give participants pointers of what I like about the image as well as how I think it can be improved.
8. This process is meant to be a positive learning experience, not a picture bashing ordeal, so do not be afraid to bring some pictures you are not sure about (but no more than 5 total).
